

Office of the Chief Property Officer

Estate Management

Asset Management

Asset Management optimises UNSW's estate to support strategic objectives, ensuring a productive and enjoyable campus experience for staff, students, and the community.

Design, Delivery & Development

The Design, Delivery & Development manages the creation of new and refurbished physical assets and infrastructure for the university.

Environmental Sustainability

Environmental Sustainability oversee the environmental sustainability vision and strategy for UNSW, focusing on key activities that impact the university's environmental footprint.

Protective Services

Protective Services ensures a safe and secure campus by protecting people, property, and assets, while providing guidance on security, emergency and traffic management.

Facilities Management

Facilities Management is responsible for managing UNSW's buildings, services, external environment, and campus infrastructure, ensuring they are safe, clean, and fit for purpose.

Safety

Safety is dedicated to implementing the Estate Management Safety Plan and supporting programs. The team manage safety incidents, lead investigations, and provide essential safety advice to staff.
